Do You Know?

Most of our Scissors have at least one serrated blade

Serrated edges are designed to catch the hair and prevent it from sliding/moving during the cutting process

Serrated edges are normally associated with less expensive scissors and are generally not designed for slice cutting.

Art No.	Description	Size
BOS-RS-146	Mr. Black The Styling Edge, Adjustable Screw for Tension with Finger Rest, Matte Black Coating	5.5", 6", 6.5"

Do You Know?

You can increase the life of your scissor by simply cleaning and oiling them daily.

You should store your scissors in a dry safe place, for example a scissors holster, and you should never put more than one pair in each slot

You should get your scissors sharpened, from a reputable company, at regular intervals.
